November 1968

HYDROGEAR SERVICE

This bulletin is for your guidance whenever - and only after - trouble shooting procedures indicate Hydrogear assembly replacement is necessary. Three Hydrogear assemblies, part numbers 6200, 7880, and 8061, are available for service replacement purposes depending on tractor model. Application, price and warranty data for each is listed below.

APPLICATION

Part No. 6200: (Rear mounted towing valve)

These units replace all 1965, 1966 and early 1967 Hydrogears. They are rebuilt assemblies. Sundstrand Hydro-Transmission, LaSalle, Illinois, the original manufacturer, has checked all internal parts against manufacturing tolerances and reassembled them using all new seals and gaskets. They can be expected to perform like new in all respects.

Part No. 7880: (Top mounted towing valve)

These are original equipment on 1967 models (except a few early models with #6200) and all 1968 and 1969 long frame 10 and 12 H.P. models. They are available only as new units.

Part No. 8061:

These are used only on the 14 H.P. 1969 tractor model 1-7441. They, too, are available only as new units.

Part numbers 6200 and 7880 are basically the same, interchangeable, and distinguished mainly by the location of the towing valve - rear mounted on 6200 - top mounted on 7880. Part number 8061 resembles 7880, but, because of gearing differences, can not be installed in place of it. It will install only on the 14 H.P. transaxle.

PRICE INFORMATION

Part Number 6200 (rebuilt)	\$120.00 List*
Part Number 7880 (new)	\$201.65 List*
Part Number 8061 (new)	\$206.75 List*

*Prices subject to change without notice

Part No. 6200:

The rebuilt #6200 is fully warranted for ninety days from the date of installation on a tractor.

Part Nos. 7880 & 8061:

New #7880 and #8061 units are fully warranted for the duration of the new tractor warranty or for six months from the installation date, whichever length of time is greater.

Each new #7880 and #8061 installed on an out-of-warranty tractor is fully warranted for six months from the date of installation.

A self-addressed information return card is attached to each assembly shipped by the parts department. Our receipt of the filled out card puts the guarantee into effect. The stub of the card stays with the tractor as a warranty receipt.

		<p>Mr. Dealer: Please fill out card, detach and mail when this Hydrogear assembly is installed on a Wheel Horse tractor. Our receipt of this card puts the guarantee of this unit into effect. The stub should be attached to a protected area of the tractor (tool box) as a warranty receipt.</p>	
		WHEEL HORSE PRODUCTS, INC., SOUTH BEND, INDIANA	
		FORM NO. 5031-C	

Important:

Only in the case of warranty replacements should Hydrogear assemblies be returned for credit. Otherwise, failed units should be scrapped locally.
