Wheel-a-Matic Transmission

This transmission is a sealed unit and is designed to give many years of trouble free service. If any adjustments or repairs other than those mentioned in this manual are required, the unit should be returned to your authorized Wheel Horse dealer.

The above note is included in the new Model 1075 and 875 Owners Manual. If Wheel-a-Matic transmissions require any internal repairs during the warranty period, the entire unit should be returned to your distributor for replacements. You will be notified at the end of the first year with regard to an exchange program and a service procedure.
